New Features & Fixes Implemented in Seldex

1. **User Location & Loan File Location**

   o Loan files now have proper user and location mapping.

2. **Location-Based Filtering**

   o Only loan files related to the user's assigned location will appear in:
     - Alert
     - File Tracker

3. **Admin Processing Location Edit**

   o Admin can now edit the processing location.

4. **Document Analysis Fix**

   o Issues in document analysis module have been resolved.

5. **Mother's Name Field**

   o Mother's Name field added/fixed.

6. **Mandatory Field Marker**

   o Mandatory fields are now clearly marked.

7. **Top-Up Loan Option**

   o Top-up loan option added for:
     - Parallel processing
     - Loan closure cases

8. **Spot Payment Rejection**

   o Option to reject spot payments is now available.

9. **Miscellaneous Expenditure**

   o Miscellaneous expenditure handling improved.

10. **Team Lead Role Logic**

- Team lead can view:
  o RMs of their branch
  o Consultants of their branch only
- Users are filtered strictly based on branch linking.
- Team lead **cannot edit branch**.
- Branch editing is restricted to **admin only**.

11. **Consultant Addition by Team Lead**

- When a Team Lead adds a consultant:
    - o Their branch gets auto-selected.
    - o Other branches will not be visible.

12. **Miscellaneous Expenditure Restriction**

- Visible only to **Admin**.

13. **Commission Rules Updated**

- **-2% TDS** in standard commission
- **-0.3%** on spot payout from standard commission
